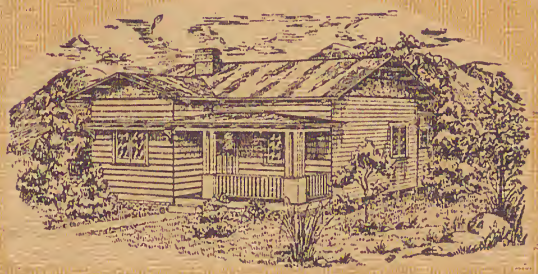
COTTAGE HOMES



GEO. HUDSON & SON LTD.

REGENT ST. REDFERN

SYDNEY

INTRODUCTION

8TH EDITION.

THIS issue will be found to contain new and modern designs as well as improvements on some of the older Plans which are still greatly favoured.

We quite recognise there are many improvements which will suggest themselves to our readers, although we have exercised the greatest care and drawn upon our experiences of fifteen years to present enquirers with what we think will be the most useful designs. We welcome suggestions from all sources, and will promptly furnish free of cost quotations and pencil sketches on any ground plan submitted to us.

Prices quoted in this Catalogue are for Weatherboard Cottages lined throughout with ½ inch T. G. V. Rimu, but we also supply Asbestos Cement Sheeting for outside walls, and a special lining of Fibrous Plaster for ceilings and internal walls; pleased to quote for either or ofs, and will acquaint enquirers on receipt of letter stating the

preparation of frame ready for Sand, Cement, Chimney Pots

D, all materials as well as the but we assume the site is

ates quoted, plus the additional a wages due to workmen under ce from Sydney, consequently gs at the lowest possible cost.

uilding we obtain Municipal uble.

OWING to the uncertainty of prices, due to the War, the quotations in this Catalogue are subject to all variations in rates for materials, from 1st June, 1915. The difference will be promptly stated on receipt of enquiry regarding any design.

GEO. HUDSON & SON, Ltd.

Gas and Water and Sewerage connections are not included in our printed quotations, but we can obtain estimates when desired.

A Stove is included only where stated in the quotation, and in all buildings of five rooms and upwards.

Copper, Tubs, Bath and W.C. are included only where stated or shown in plan.

Stating our prices in plain figures, it will be readily grasped, is a challenge to competitors, as it gives others an opportunity to offer to supply for less, but our figures represent the lowest prices it is possible to supply the quantity and quality of materials and labor which are used in our buildings, and we recommend our readers to peruse the specification set out on page 2, and to insist upon that standard if competition is offered.

GEO. HUDSON & SON LTD.

Telephone 843 4 Redfern.

Regent Street, Redfern.

June, 1915.

Please do not destroy Catalogue.
To state No. of design will be as serviceable as tearing out the page.

Wholly set up and printed in Australia by HUGHES, COKER & Co., 43-45 Dixon Street, Sydney.

INTRODUCTION

8TH EDITION.

THIS issue will be found to contain new and modern designs as well as improvements on some of the older Plans which are still greatly favoured.

We quite recognise there are many improvements which will suggest themselves to our readers, although we have exercised the greatest care and drawn upon our experiences of fifteen years to present enquirers with what we think will be the most useful designs. We welcome suggestions from all sources, and will promptly furnish free of cost quotations and pencil sketches on any ground plan submitted to us.

Prices quoted in this Catalogue are for Weatherboard Cottages lined throughout with ½ inch T. G. V. Rimu, but we also supply Asbestos Cement Sheeting for outside walls, and a special lining of Fibrous Plaster for ceilings and internal walls; the finish of the latter is unsurpassed, and we shall be pleased to quote for either or both. We also supply Asbestos Cement Slates for Roofs, and will acquaint enquirers of the difference in cost over Galvanized Iron Roofing on receipt of letter stating the design favored.

Where we quote MATERIALS this covers preparation of frame ready for erection, but we do not include Bricks, Paint, Lime, Sand, Cement, Chimney Pots and Arch Bars.

Where we quote ERECTED AND PAINTED, all materials as well as the items mentioned in the preceding paragraph are included, but we assume the site is level, easy of access, and not far from our Works.

We erect the buildings ANYWHERE at the rates quoted, plus the additional cost of conveyance of workmen and materials, and the extra wages due to workmen under the existing Award when they are employed some distance from Sydney, consequently owners of land in the country are able to secure buildings at the lowest possible cost.

When we are entrusted with the erection of a building we obtain Municipal or Shire permission, thus relieving our customers of all trouble.

Gas and Water and Sewerage connections are not included in our printed quotations, but we can obtain estimates when desired.

A Stove is included only where stated in the quotation, and in all buildings of five rooms and upwards.

Copper, Tubs, Bath and W.C. are included only where stated or shown in plan.

Stating our prices in plain figures, it will be readily grasped, is a challenge to competitors, as it gives others an opportunity to offer to supply for less, but our figures represent the lowest prices it is possible to supply the quantity and quality of materials and labor which are used in our buildings, and we recommend our readers to peruse the specification set out on page 2, and to insist upon that standard if competition is offered.

SPECIFICATION

The following Specification is for a Building to Plan No. **10**b, and describes the goods supplied by us when MATERIALS ONLY are ordered.

This Specification is quoted as often enquirers are in doubt regarding the sizes of timbers, and as to whether nails, locks, etc., are included, and is typical of the specifications of most of the larger buildings quoted. Smaller cottages have similar sizes and qualities of timbers, but the quantities are smaller as explained in the Introduction.

Main Building.

Top Plates - 3 x 2 Oregon.
Bottom Plates, 4 x 3 Hardwood.
Bearers - - 4 x 3 ,,
Studs - - - 3 x 2 ,, or Oregon 18 in. apart.
Angle Studs - 3 x 3 Oregon.
F. Joists - - 5 x 2 Hardwood, 18 in. apart.
C. ,, - - 4 x 2 Oregon, 18in. apart
Rafters - - 4 x 2 ,, 36 in. centres
Hip Bds. - 7 x 1 ,,
Ridge ,, - 7 x 1 ,,
Valley ,, - 7 x 1 and 9 x 1 Oregon
Trimmers and Trimmer Joists, 4 x 2 Oregon
Purlins and Pole Plates, 3 x 1¼ Oregon
Braces, 3 x 1 Oregon
